Sport Consumer Satisfaction

SPM381 CONSUMER BEHAVIOR IN SPORTS

Think about when you are satisfied with a game consumption....

What is sport consumer satisfaction?

Your definition

?????

Your instructor's definition

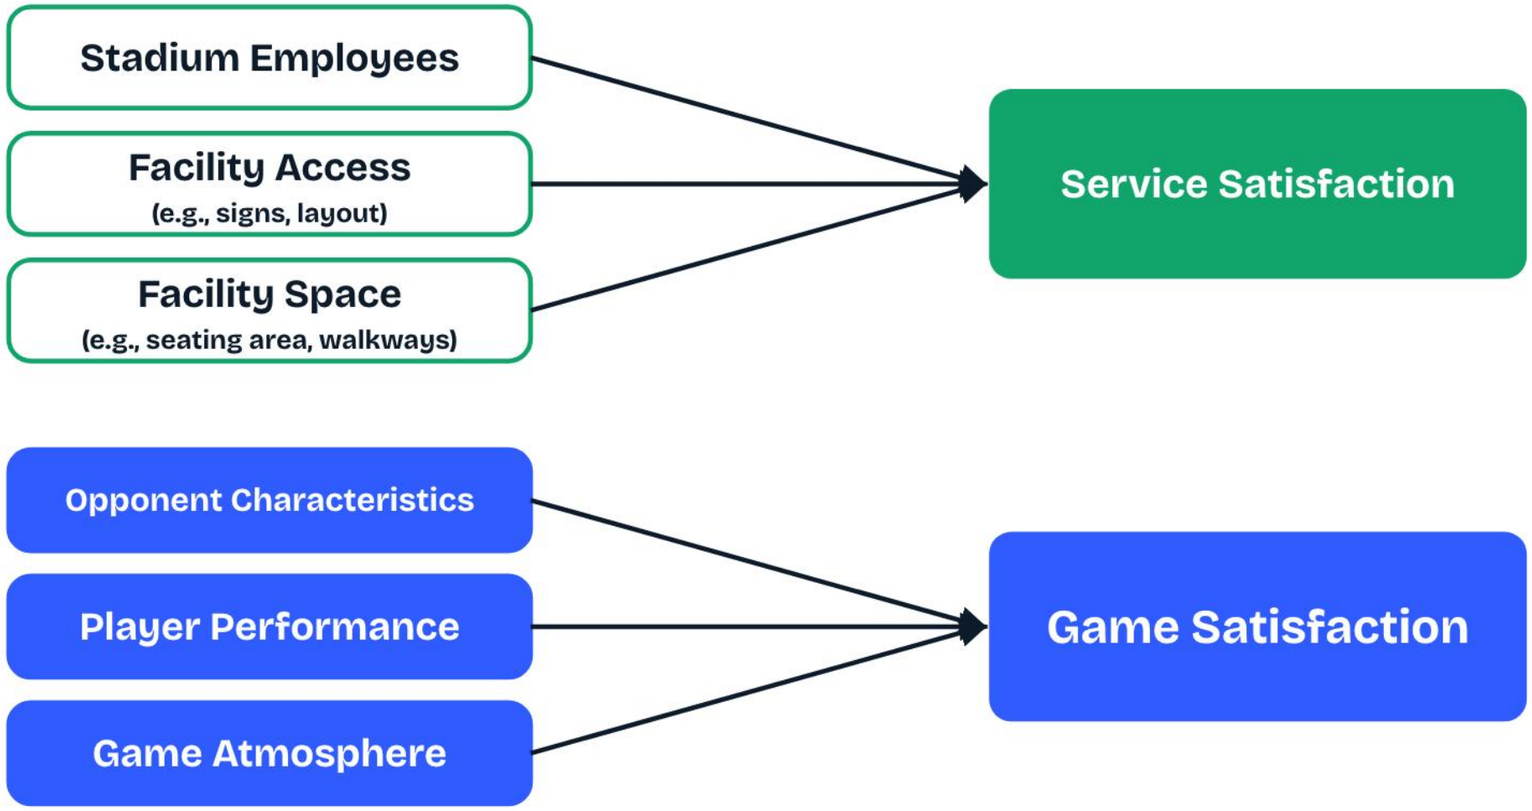

Feeling positive emotions while watching a game.

What is Sport Consumer Satisfaction? cont.

Textbook definition (Oliver, 1997, p. 13)

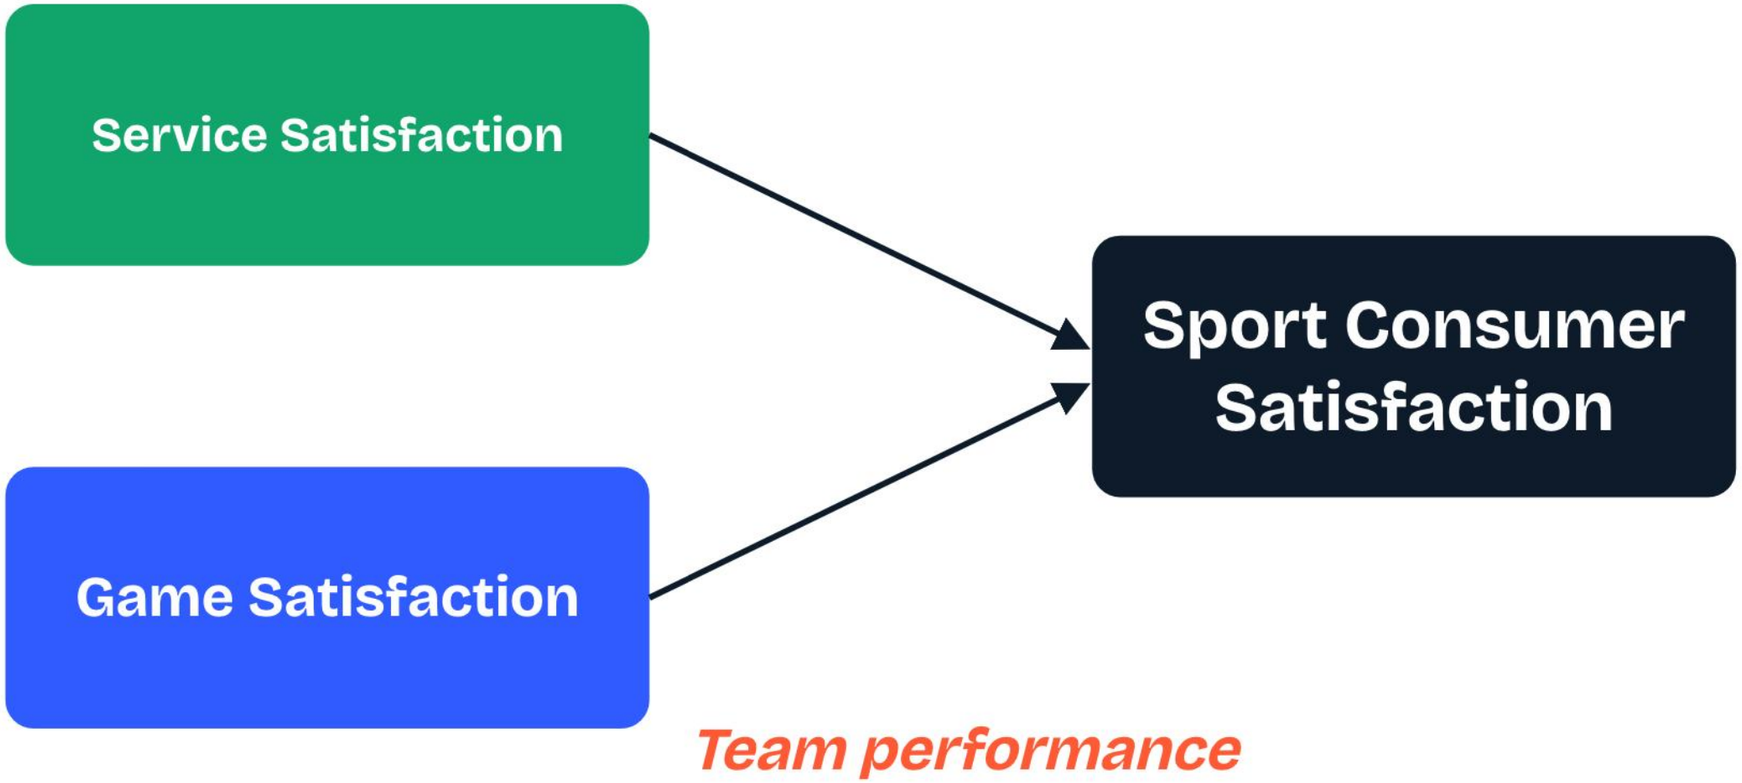

> “Satisfaction is the consumer’s fulfillment response. It is a judgment that a product or service feature, or the product or service itself, provided (or is providing) a pleasurable level of consumption-related fulfillment, including levels of under- or overfulfillment”

Two Different Types of Sport Consumer Satisfaction

Yoshida & James (2010)

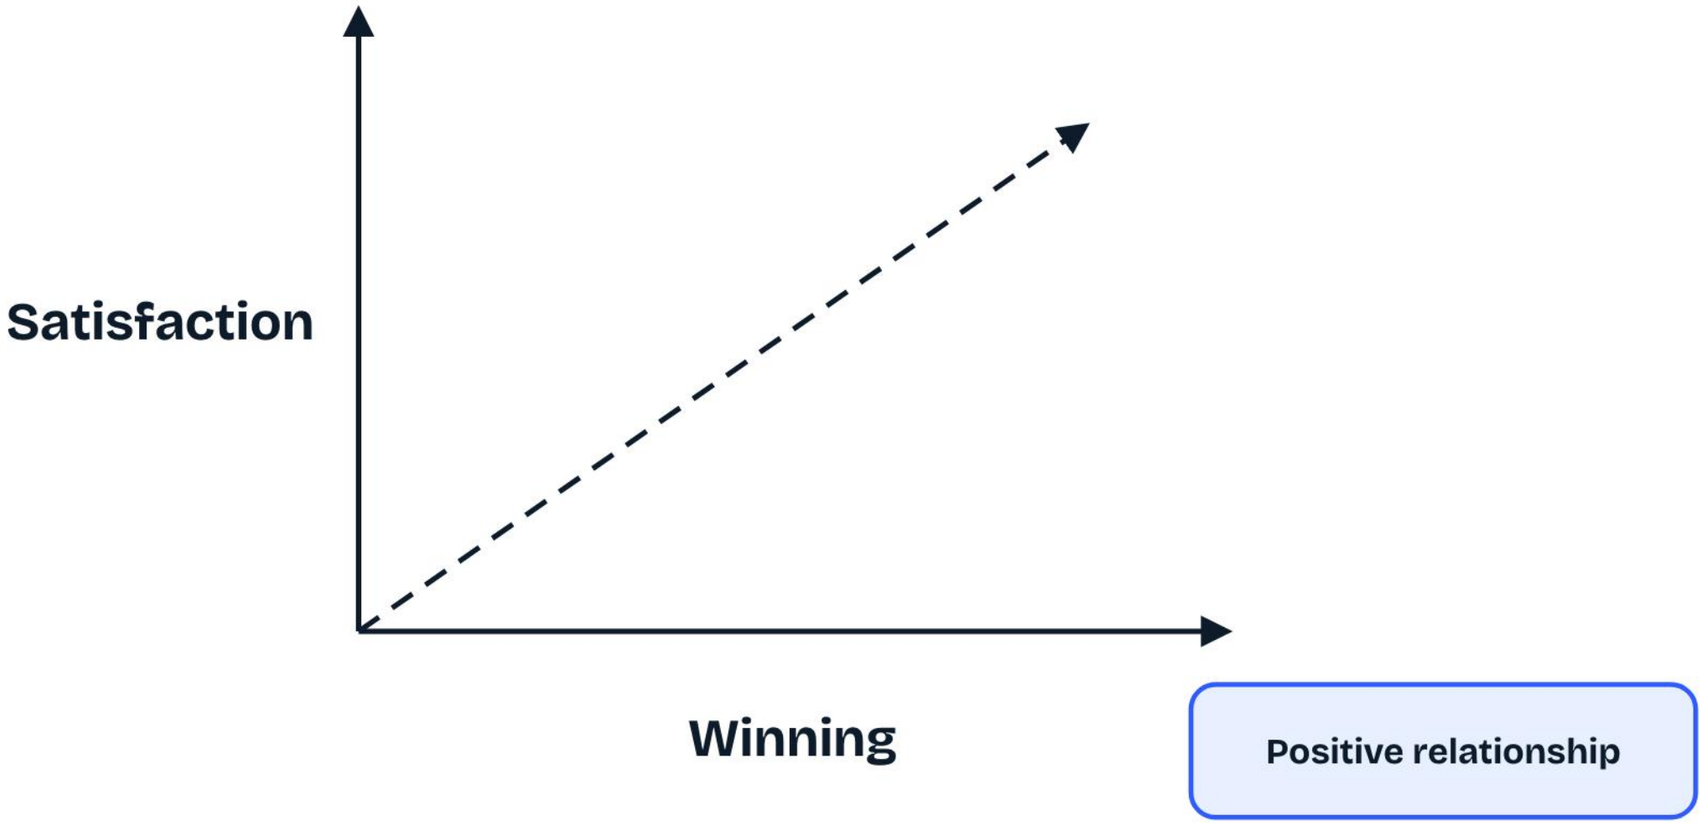

Two Different Types of Sport Consumer Satisfaction cont.

Fulfilling the Fan Experience: A look inside the relationship between fan satisfaction and on-field performance

- Turnkey Intelligence
- June-August 2010
- Please find the article on the course website (see Module 12- Lecture Slide & Readings). The weekly discussion questions #11 are derived from this article.

Any implications???

Any implications from the group work???

SGB (single game buyers)

STH (season ticket holders)

SGB were more satisfied with the gameday experience than STH (except MLS)

When Are You Satisfied with Game Consumption?

> **Are you always satisfied after watching your favorite team's winning?**

- Yes or No
- If yes, why? If not, why not?

When Are You Satisfied with Game Consumption? cont.

Win	Loss
Straight win	Straight loss
Disappointing win	Relieving loss

When Are You Satisfied with Game Consumption? cont.

Of four different game outcomes, when do sport consumers report the highest level of satisfaction?

Straight win > Relieving loss > Disappointing win> Straight loss

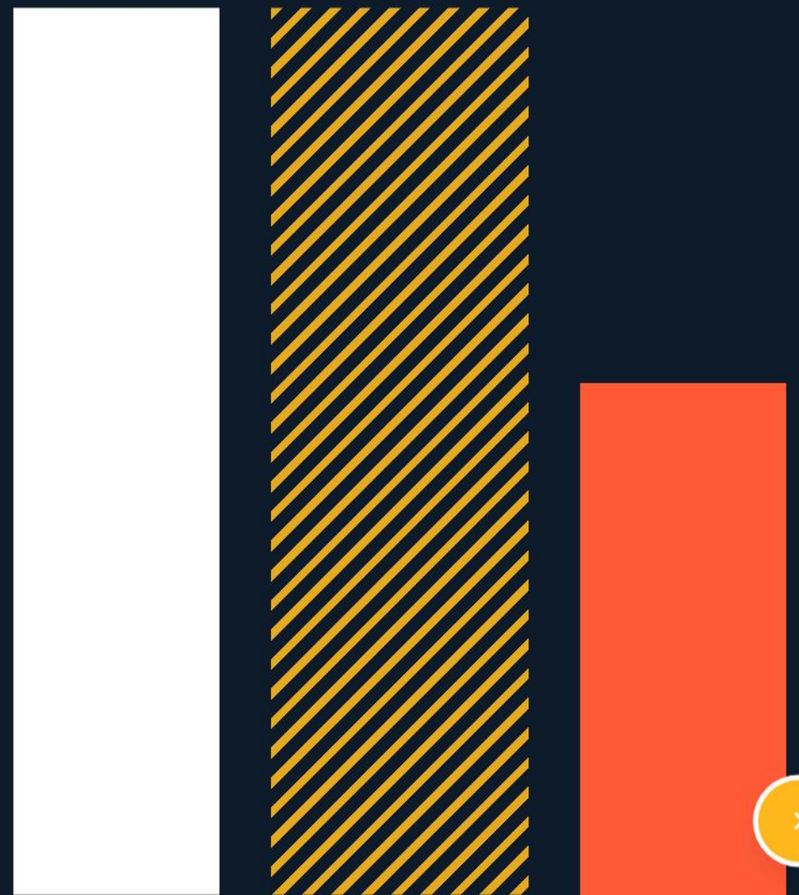

When Are You Satisfied with Game Consumption? cont.

Comparison Standard of Satisfaction

- (1) Expectancy-Disconfirmation
- (2) Counterfactual Thinking

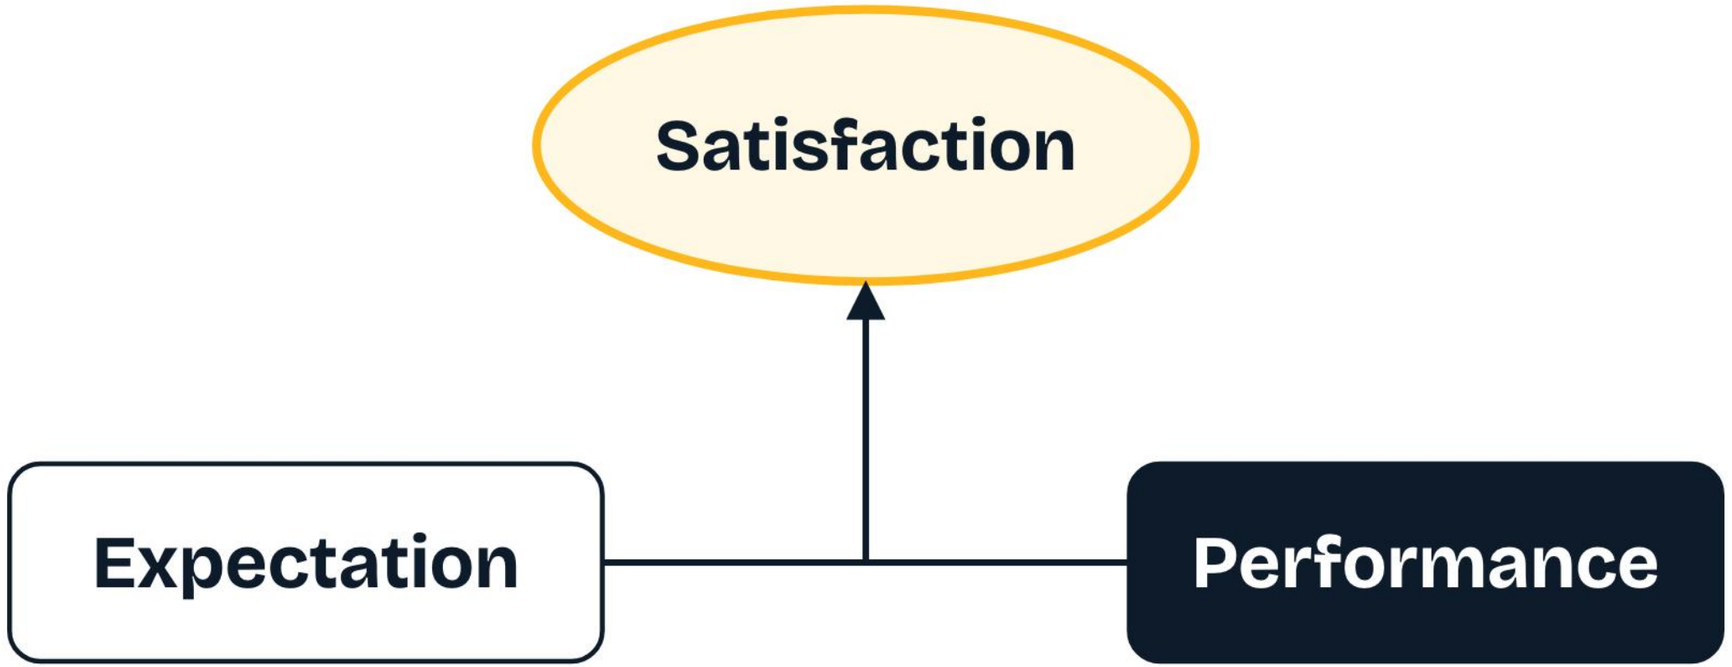

THE GAP

Expectancy Disconfirmation

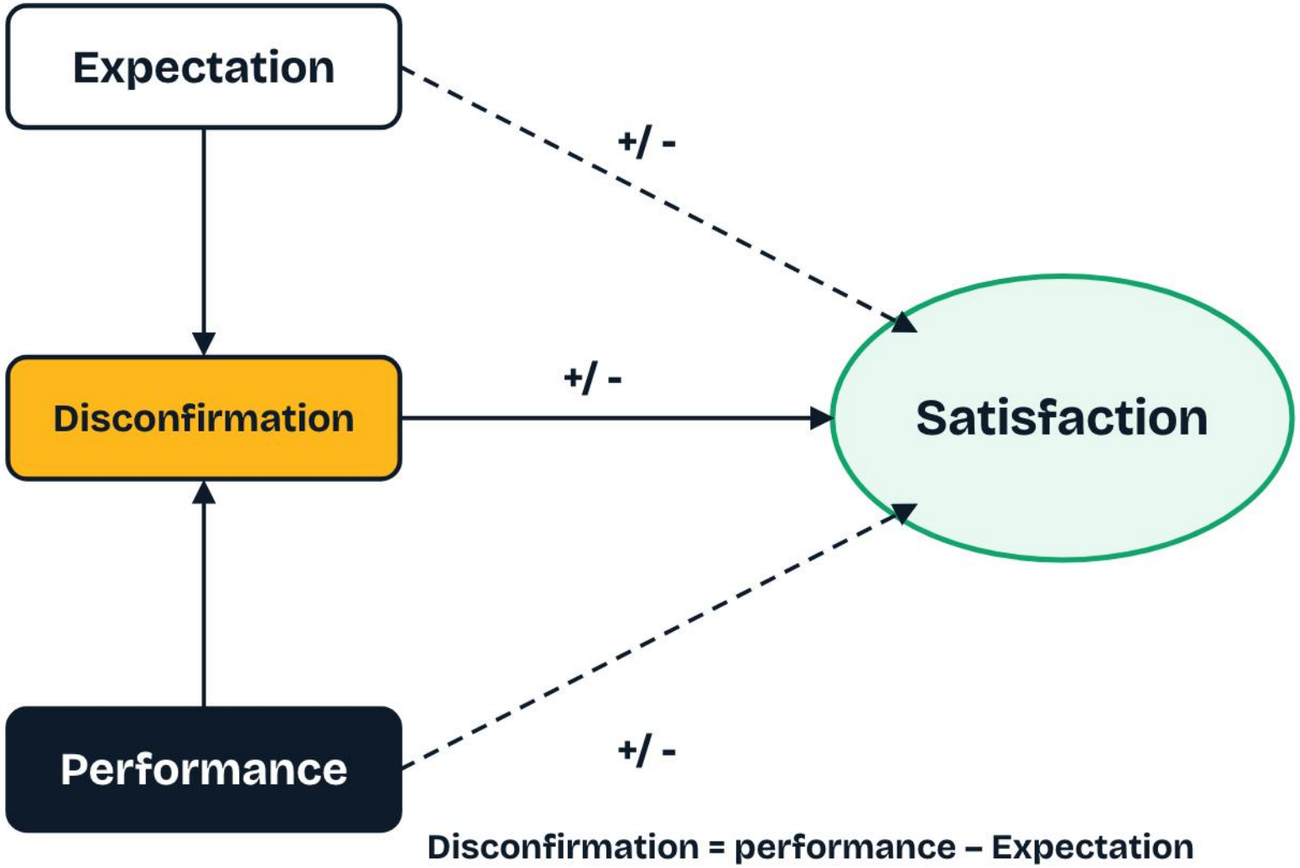

Expectancy-Disconfirmation

“Consumer satisfaction is a function of the discrepancy between a consumer’s expectation and product performance.”

Expectancy-Disconfirmation cont.

Disconfirmation = performance – Expectation

Expectancy-Disconfirmation cont.

Disconfirmation = performance – Expectation

(1) When the score of disconfirmation is negative, it refers to ‘negative disconfirmation.’

(2) When the score of disconfirmation is zero, it refers to ‘zero disconfirmation or just disconfirmation.’

(3) When the score of disconfirmation is positive, it refers to ‘positive disconfirmation.’

Expectancy-Disconfirmation cont.

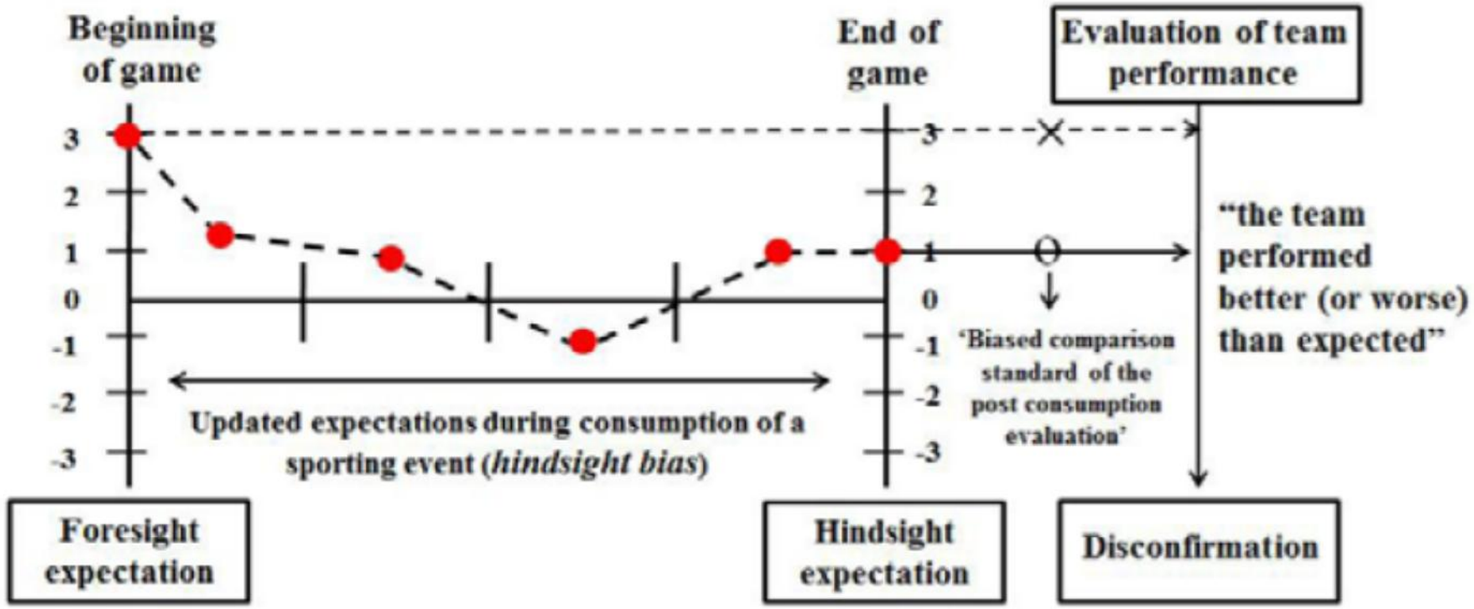

- (1) My favorite team performed better than I expected.
- Performance> expectation = high satisfaction
- (2) My favorite team performed worse than I expected.
- → Performance < expectation = low satisfaction

Why is Sport Consumer Satisfaction Important?

- When fans are satisfied with game experience, they are likely to attend the future games.
- When fans are satisfied with game experience, they are less likely to complain about the team's performance (i.e., positive word-of-mouth).
- When fans are satisfied with game experience, they are likely to become a loyal fan.

Problem of Expectancy-Disconfirmation

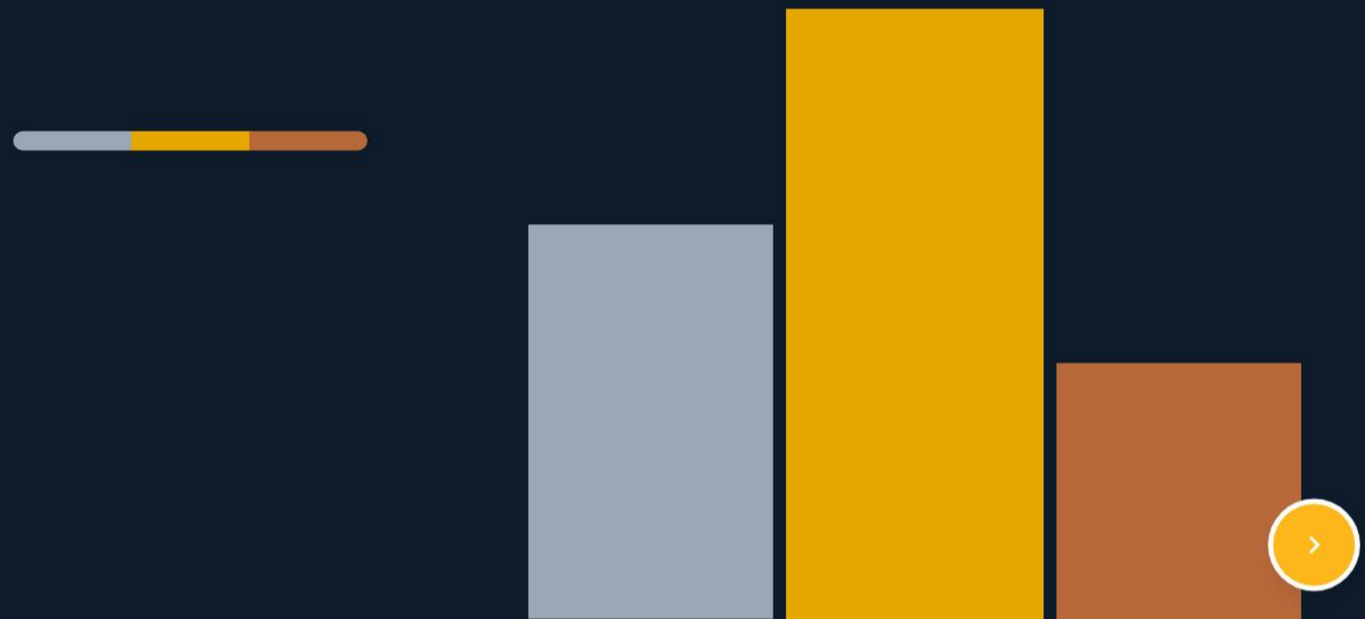

Hindsight bias with the expectancy-disconfirmation

THE PODIUM

Counterfactual Thinking

Who has the least level of satisfaction?

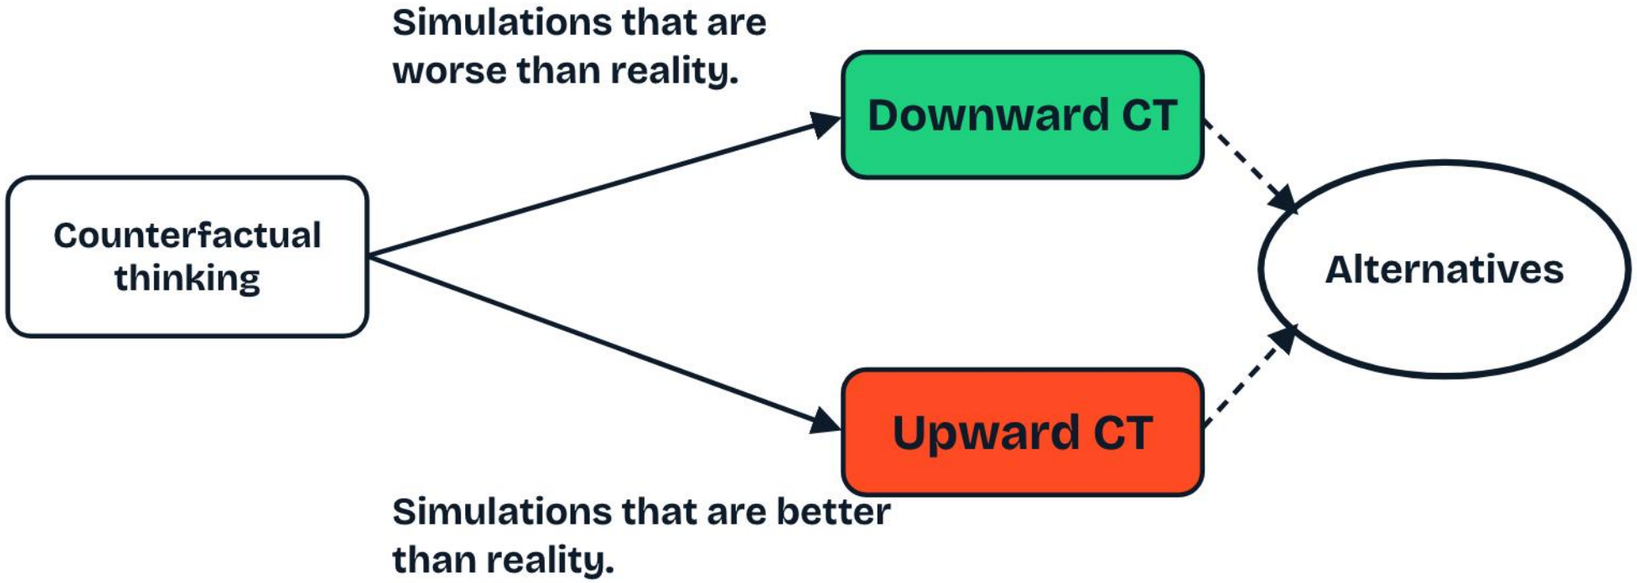

Why?

Counterfactual Thinking

- Theory of counterfactual thinking (Epstude & Roese, 2008; Roese & Olson, 1993, 1997).
- “If only or at least mental simulations of alternative possible outcomes that people often have in response to events in their lives” (Sanna et al., 1999, p.543).
- The ability to imagine alternative outcomes to an event.
- Classified based on its direction of comparison (Roese, 1997; Roese & Olson, 1993, 1997).

Counterfactual Thinking cont.

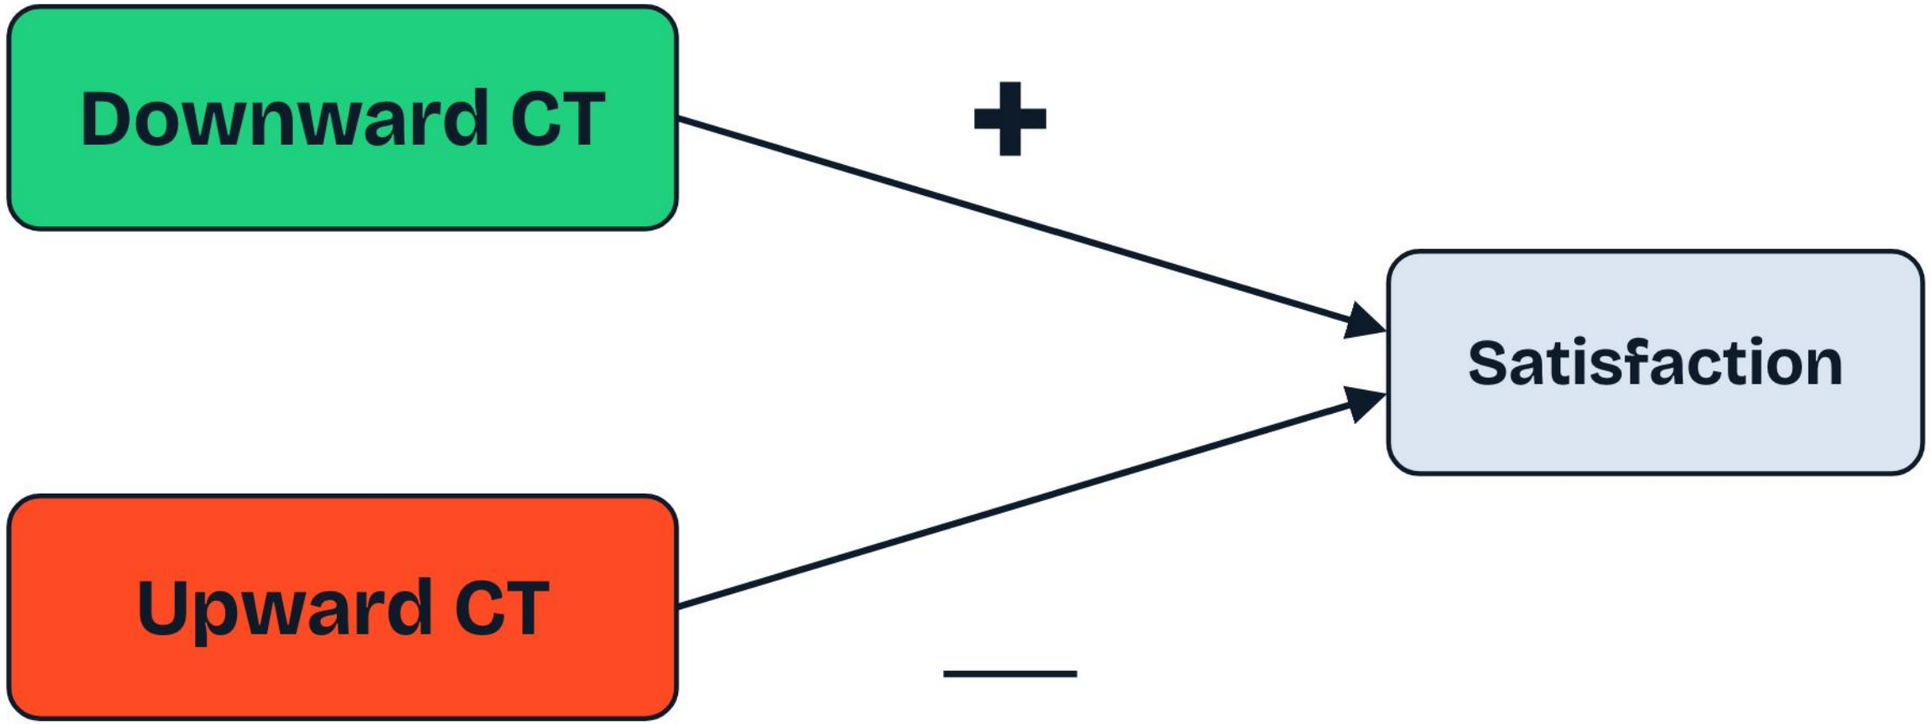

Direction of Counterfactual Thinking

"The game could have been worse..." Downward CT or Upward CT?

"The game could have been better..." Downward CT or Upward CT?
